

MAS Gland Packing Extractors

A Special tool effective and popular for removing packings from pumps, valves, agitators and fittings.

ADVANTAGES :

- A non-kinking flexible shaft which will not stretch or compress under loads, facilitates the extraction of packings from even the least accessible stuffing box.
- It reduces the time required to change the packing to fraction of the time previously needed.
- It helps in removing the packings intact, which saves a lot of money on packing replacements.
